To whom it may concern

In Term One this year we were involved in the SNAG Golf programme, run by Todd Statham. Children across the school were involved in a wonderfully managed and supervised activity. Skills were gradually delivered and individual special needs were carefully considered. The SNAG equipment allowed all students to experience success.

Students from all levels had a fantastic time.

Some quotes from students include:

- Year 1 I liked hitting the ball. Hamish
I liked when we had to throw the ball with the strings on it. Harmony
I liked hitting the ball through the hole. Victor
- Year 3 We got to learn a new sport. Samantha
It was quite challenging. Joe
I liked when we could smash it as far as we could. Taine
- Year 6 It was exciting trying a new sport. Charlotte
We got to learn different strategies on the course. Chris
It was fun because they taught us about the different clubs. Ben
It was competitive, which I like. Anton

We would not hesitate to have Todd and his team back at school.

I strongly recommend the SNAG programme to all schools.

Yours sincerely

Christopher Pipes
Deputy Principal
Hauraki School
