

SNAG® stands for "Starting New at Golf"

SNAG® Golf have developed a first touch programme specifically for children in schools. We have incorporated years of experience to bring an engaging programme that anyone from 5 - 18 can participate in. The lessons are scaffolded and use KEY words and phrases making learning FUN and easy.

Based on short skills based games and activities, it provides maximum engagement for all the children.

By using specifically designed, modified golf equipment, the programme helps develop hand eye coordination, balance and teamwork. This allows golf to be learned and played, with immediate, positive results.

Key Benefits of the SNAG® School Physical Education Programme

- The psychology of colour is used to define the correct grip and identify basic rules of the game.
- Targets are used to help the students focus on aiming and accuracy.
- Specially designed balls are used for safety and success.
- The equipment and training tools are specifically designed to simplify the learning process.

What is SNAG®?

SNAG® Golf is all about having FUN while learning the basics of golf.

SNAG® is a player friendly, first touch development programme designed for both children and adults.

SNAG® incorporates developmentally appropriate equipment that allows golf to be learned and played in alternative venues with immediate, positive results.

- The psychology of colour is used in each of the components.
- The five-sided grip ensures that students hold the club properly.
- The Launch Pad™ makes the game portable and serves as an alignment tool.
- Targets are used to help the student focus on aim and accuracy.
- Training tools (some with sounds) help each student develop skill acquisition quickly.

Our equipment and training tools are specifically designed to simplify the learning process.

In School Programme

To book your SNAG® In School Programme go to www.snaggolf.co.nz

The SNAG® Golf curriculum includes objectives in physical health and development, fundamental movements, locomotor and manipulative skills.

The curriculum includes key competencies featured in the **SNAG®** programme:

- Thinking.
- Using language/symbols/text.
- Managing self.
- Relating to others.
- Participating/contributing.

The SNAG® curriculum includes concepts in:

- Mathematics - numeracy, angles, measurement.
- Physical Education – gross and fine motor skills, spatial awareness, accuracy.
- Social Studies - communication, relationships, co-operation.
- Science – (physics) forces, inertia, acceleration, trajectory.
- Fundamental Movement Skills - body awareness, space awareness, qualities & relationships.
- Perceptual Motor Programme (PMP) - rotation, balance (stability), movement, co-ordination & manipulative skills.

Why do you need the SNAG® Coaching Programme?

There has never been a system dedicated to the development of new players that is both so easy to teach and learn. This system integrates modified equipment with instruction that makes the learning process fun.

Teachers Quote "Skill development was fantastic. The kids really looked forward to their sessions. Each activity was short and snappy so the kids were constantly engaged."

SNAG® School Kit
